

# Narrative Summary

## 1. Narrative Summary

Name	Amy Chambers
School	Hanceville High School
Date	July 5th 2010

**“Each educator will prepare a one-paged typed narrative suitable for publication in newspaper, newsletters, magazines, etc. This narrative should reflect on the experiences during the externship and how it will impact your individual curriculum during the school year.”**

## 2. Narrative Summary

My experience working at Rehau was an excellent opportunity to see first hand the quality of manufacturing that takes place in Cullman County. Rehau is a very impressive place. The first thing that I notice was the clean and organized facility. I later learned that this played a large role in the safety and environmental issues of the plant. First I did a tour through the plant. Next I observed and worked in every department there. Through this experience, I was able to see many computer skills, chemistry, mathematics, forklift operators, recycling, large robots and workers putting items together in fabrication. The people at Rehau work hard and every one I spoke to liked working there. I will use my experience in the classroom to relate skills and information to real life situations.
