

CAWS Lesson Plan Template

Program: Careers in Science Field

Instructor: Hite

9th Biology

Date:	6-22-11
Lesson Length:	2 days
Topics:	Careers in Science

Students will research various careers available at our local hospital.

Using a list of career choices and the internet, students will research and prepare a poster . Information should include name of your career, educational requirements, salary, job availability, working conditions and any other interesting information. Students will be assessed by using a rubric provided.

BACKGROUND / PREPARATION:

Students will go to computer lab and research selected web-sites for information related to the career they choose.

PRIMARY LEARNING OBJECTIVES:

Explore careers in science field. Design and create an exhibit. Plan and give a 3 to 5 minute oral presentation about the career selected.

Essential Question: Have you thought about what you would like to do when you grow up?

Textbook	Lab Manual	Video	Other
